The quick brown fox jumps over the lazy dog 1234567890

QST DE N6VTS N6VTS John Region 2 District 2 Colorado Springs CO Calling the Pikes Peak ARES Sound Card (S/C) Net.

Net is conducted by Pikes Peak ARES to encourage development of sound card digital techniques for emergency communications in support of served agencies. S/C nets are called MT63-2000L mode at 1930 on last Tuesday of each month.

Frequencies: Even-numbered months: Primary--448.450 (-) 100 Hz PL; Alternate—144.99 Simplex

Let NCS know if you are new to sound card operations.

Check in with Call, Name, Location. For example, N6VTS, John, Colorado Springs, QRU or QTC.

QRU = I have no traffic for you QTC = I have \_\_\_\_ message(s) for you (or for \_\_\_\_).

LOST? Call NCS/N6VTS on 719-330-0916.

After check-ins, NCS will send exercise instructions.

QND QND [Net is Directed]
QNN N6VTS N6VTS [Net Control Station is \_\_\_\_]
QNZ QNZ [Zero-beat your signal with mine]
QNI QNI [Net stations report in]
K [Invitation for any station to transmit]

[Net control, please sent report of checkins and time to <a href="Movement.net">N6VTS@arrl.net</a>, following each net.]
